

Dear Families,

It is still hard to believe the effects of the snow storm over the Halloween weekend. Many families experienced power failures and did not receive the K-12 Alerts concerning changes in school schedules because of phone and internet problems. Please consider contacting the district office to add additional parent/guardian phone numbers to your K-12 Alert account just in case another serious weather event occurs this winter.

We are looking forward to parents visiting us for American Education Week beginning on November 14th. Each classroom teacher has sent home a letter inviting you to visit on a specific day and time. We will be celebrating the home/school connection. You will find out more about the reading strategies that your child is learning and some helpful ideas that you can use when working at home with your child. The school parking is limited during the day, but the Elk's Club parking lot is available for Miller School visitors.

On behalf of the faculty and staff, I wish your family a Happy Thanksgiving!

Sincerely,
